Annotated Bibliography

Berns, Walter, et al. "Should the Current Electoral College System Be Preserved?"

Congressional Digest 80.1 (2001): 16-31. The article gives three arguments each for opposing viewpoints. The authors of the article are well-respected individuals in the field of politics and voting.

Best, Judith A. "Presidential Selection: Complex Problems and Simple Solutions." *Political*

Science Quarterly 119.1 (2004): 39-59. Best argues how the Electoral College system has evolved over the years to be an essential part of our complex government that is effective, not outmoded.

Cebula, Richard J. "The Electoral College and Voter Participation: Evidence on Two

Hypotheses." *Atlantic Economic Journal* 29 (2001): 304-10. Cebula gives two arguments on how the Electoral College influences the voting rate of different states. This gives valuable insight on whether the system has a positive impact.

"Electoral College Overview." *Congressional Digest* 80.1 (2001): 5-8. This article explains how a president is elected through the Electoral College system. It gives explanations to how the Constitution provides for the Electoral system.

Jefferson-Jenkins, Carolyn. "Who Should Elect the President? The Case Against the Electoral

College." *National Civic Review* 90 (2001): 173-81. This article argues against the

system and gives an explanation of what should substitute the current outmoded system, fit for 21st century.

Samples, John, Tom G. Palmer, and Patrick Basham. "Lessons of the 2000 Election." *USA Today Magazine* 129.2672 (2001): 10-14. The authors explain what went wrong in the 2000 Presidential Election and propose ways to improve the Electoral College in order to avoid the same mistakes.
